

Journal Club (Wednesday 3 pm in South Building #321)

Presentations (2-3 people, 5-15 minutes)

1. You do not have to understand everything in the paper! Just do the best you can—your classmates likely have many of the same questions!
2. In your presentation, please mention:
 - a. Question(s) asked and main conclusion
 - b. What did you find interesting?
 - c. What did you find confusing? (Any confusing terminology?)
 - d. Do you have general questions (on background, implications of conclusions, etc)?
 - e. **Include powerpoint slides to go with your presentation.**
3. We encourage the presenters to meet and discuss the paper and make a single presentation, where all of you will speak for at least part of the time.

Wednesday July 26 – Albert Ko

“Maternal ancestry and population history from whole mitochondrial genomes”

Toomas Kivisild, 2015

<https://investigativegenetics.biomedcentral.com/articles/10.1186/s13323-015-0022-2>

- WangHengzhi
- Jacob Gardner

Wednesday August 4 – WangHongru

“An Ancient Human Genome Sequence of an Extinct Palaeo-Eskimo”

Rasmussen et al. 2010

<http://www.nature.com/nature/journal/v463/n7282/full/nature08835.html?foxtrotcallback=true>

- ZhangMing
- CuiMengjie
- LiJingbo

****UPDATE: MONDAY AUGUST 14 – Qiaomei Fu and Melinda Yang**

“Altitude Adaptation in Tibetans Caused by Introgression of Denisovan-like DNA”

Huerta-Sanchez et al. 2014
